<p>Full unit</p>	<p>Meadow Stone Can be used to build near vertical retaining walls up to a height of 800mm. These can be either straight or curved. Corners can be sweeping, round or right angled for stylised gardens and courtyards</p>	<p>Blue Mountain (BMS40NBM) Bondi Sands (BMS40NBS)</p>	<p>60 Fulls</p>	<p>20kg - 48 per tonne 16.6 pairs per LM \$185.42 per M3</p>	<p>\$11.17 ea</p>
<p>Capping stone</p>	<p>Top off your Meadow Stone retaining wall with matching capping stones. Not only will this give the retaining wall a finished look but provide a comfy seat in your garden</p>	<p>Blue Mountain (BMC60NBM) Bondi Sands (BMC60NBS)</p>	<p>168</p>	<p>6kg - 147 per tonne 3.8 per LM \$22.57 per LM</p>	<p>\$5.95 ea</p>

Meadow Stone™ differs from other segmental wall systems in that it comes in three different facing widths together with matching caps suitable to sit on. These small, medium and large width blocks are laid either in a repeating three pattern or at random, to break up the formal look typically associated with this kind of product. A Square metre of Meadow Stone wall consists of 8.3 Pairs of the 150mm and 250mm blocks and 8.3 of the 400mm blocks. Capping stones can be added and require 3.8 per linear metre.

NOTE: All weights are approximate
